Did You Hear?

Starting May 2025, the **Canadian Dental Care Plan (CDCP)** will expand to include **all eligible Canadians aged 18 to 64** — giving millions more access to affordable dental care.

If you're eligible, you could start receiving coverage as early as **June 1, 2025** — but only if you apply on time!

Who qualifies?

To apply for CDCP, you must:

- Not have dental insurance through work or other benefits
- File your 2024 tax return
- ✓ Have a family net income under \$90,000
- Be a Canadian resident for tax purposes

Already enrolled in CDCP?

Don't forget — renewals begin in March 2025. To keep your coverage active, make sure to:

- File your 2024 tax return
- Apply for renewal by June 1, 2025

Miss the deadline? Your coverage could end on June 30, 2025, and any dental care received after that may not be reimbursed.

Need help understanding what this means for you?
